FAQ:

Q: Why do I need a healthcare provider?

A: Having a healthcare provider leads to lower bills cost, earlier health issue detection, and better coordinated care.

Some services they provide:

- Routine screenings
- Immunizations
- Lab work
- Checkups
- Physicals

Q: What if I have insurance but they do not cover certain expenses, such as medications or a wheelchair?

A: You will be liable to pay up to a set dollar amount every year for anything that insurance does not cover. This would be labeled as the 'out of pocket' costs in your insurance plan. Typically around \$15,000/year.

Q: What if I want to see a specific medical professional but I am not sure whether or not they are in network?

A: You can ask the medical professional themselves which insurance providers they accept or you call your insurance company to ask whether that specific medical professional is in network.

Division of Public Health

GETTING HEALTH CARE

DEFINITIONS:

NETWORK

The facilities providers and suppliers your health insurer or plan has contracted with to provide health care services.

PREMIUM

The amount you pay for your health insurance/plan every month.

Out of Pocket

Your expenses for medical care that are not reimbursed by insurance.

Co-Pay

An amount you pay as your share of the cost for a medical service or item.

Deductable

The amount you owe for covered health care services before your health insurance/plan begins to pay.

High vs Low Deductable

Often plans with lower monthly premiums have higher deductibles and vice versa.
