

# International Travel Vaccines

## What to know before you book an international trip:

Visit the CDC Travel website for up-to-date information on travel advisories: [wwwnc.cdc.gov/travel/notices](http://wwwnc.cdc.gov/travel/notices)

Enroll in Smart Traveler, a free program offered through the US State Department that will share any updates specific to your travel destination(s) with you: [step.state.gov](http://step.state.gov)

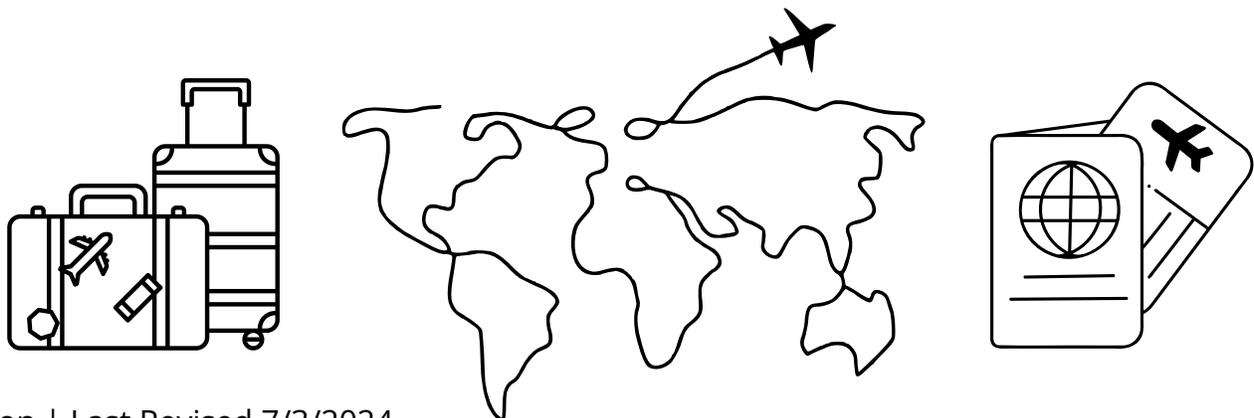

## What are travel vaccinations?

Travel vaccinations protect you against getting sick while traveling. Some countries may even require you to have certain vaccines before you can travel there. Making sure you get the right vaccines helps keep you from getting sick on your trip and stops you from bringing any germs back home with you.

## Who needs travel vaccinations?

Anyone planning to travel internationally for business or pleasure should check to see if they need travel vaccinations.

Visit the Wisconsin Immunization Registry webpage to look up your personal immunization record: [dhfswir.org/PR/clientSearch.do](http://dhfswir.org/PR/clientSearch.do)

## When should I get my vaccinations?

You should get your vaccines at least 4 to 6 weeks before you leave. It can take your body a few weeks after getting the vaccine to build up immunity.

## What travel vaccinations do I need?

You should make sure you have your routine vaccines:

- Chickenpox (varicella) vaccine
- MMR (measles, mumps, and rubella) vaccine
- Meningococcal vaccine
- Pneumococcal vaccine
- Polio vaccine
- Shingles vaccines
- Tetanus and diphtheria (Td) vaccine
- COVID vaccine
- Flu vaccine

Depending on your history and where you're traveling you may also need:

- Dengue fever vaccine
- Hepatitis A and Hepatitis B vaccine
- Japanese Encephalitis vaccine
- Meningitis vaccine
- Rabies vaccine
- Typhoid vaccine
- Yellow Fever vaccine

You can receive some or all of your needed vaccines at your healthcare providers office or a local pharmacy.

## What happens at a travel clinic appointment?

A provider will:

- Check your health history and health needs based on your travel itinerary
- Discuss the recommended and required vaccinations
- Give you any necessary vaccinations
- Provide recommendations and prescriptions for medications to prevent or treat malaria, traveler's diarrhea, motion sickness, jet lag, and altitude sickness
- Provide education on food and water safety, injury prevention, insect precautions, and travel insurance
- Answer any additional questions you may have

# International Travel Vaccine Clinics

**Note:** Consultation and vaccination fees vary by clinic. Please contact your selected location directly for information regarding fees and other related costs.
