“Golden Gardeners”

Do you love the smell of flowers? Do you enjoy the feel of dirt? Would you like to get some sunshine, meet friends and learn some new information about gardening? If so, bring your garden tools, bring your garden stories and join us.

Plan to listen to an educational presentation and have the opportunity to share garden stories and ask questions of our guest garden expert. You may get your hands dirty and work in our new patio garden if you wish. If you can't get on your hands and knees, come anyway and help “supervise.”
